PART-1

INTRODUCTION

- Our body is a wonderful gift of nature.
- It has many parts.
- These help us in many ways.

Label the parts in the figure given below:

SENSE ORGANS

Rahul has prepared a nice dish. He puts a spoonful of it in his mouth and says, 'Oh! There is no salt in it.'

Ramesh touches a block of ice and immediately draws his finger away. He says, 'It is very cold.'

There is a band playing very loud music in the neighbourhood park. sunny puts his hands on his ears and says, 'They are making a loud noise.'

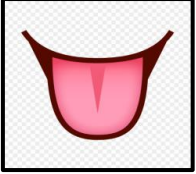

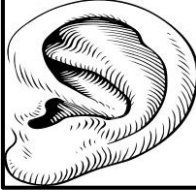

When we see a beautiful painting, we say, 'Wow! It is beautiful.'

- ☞ These examples tell us that our tongue, skin, ears and eyes are able to taste, feel, hear and see various objects.
- ☞ Our body organs, which help us to sense various things present around us, are called **Sense Organs**.
- ☞ **Eyes, ears, nose, skin and tongue** are our **sense organs**.
