Presents

Accelium Olympics 2020

An online, worldwide smart games competition between schools

International Challenge

The Accelium Olympics is an online educational event that brings together children from all over the world. The tournament is between schools. Students will individually solve challenges and earn points for each challenge they solve. The points will be added to the total school points and ratings.

Dear Parents,

Competing at "The Accelium Olympic 2020"

We are glad to share that your school is proudly taking part in the **International Life Skill Olympics** powered by Accelium brought to you by Eupheus Learning. Schools from 20+ countries are participating for the honors.

Accelium's International Life Skill Olympics is an online educational event that brings together children from all over the world. Let us use this opportunity by encouraging every single child to come on the platform.

This is **free of cost** for all our students, the registration fee is borne by the school.

Olympic Schedule

Participants: **All our students of classes I to VIII**

Competition Starts on: **25th May 2020**

Competitions Ends on: **8th June 2020**

Open tournament

The open tournament designed for students from grades I- VIII

Four tournaments will be held simultaneously according to the following:

- **Tournament 1: Grade 1-2**
- **Tournament 2: Grade 3-4**
- **Tournament 3: Grade 5-6**
- **Tournament 4: Grade 7-8.**
- The open tournament will last for two weeks
- Age-specific challenges are designed for each age group.
- The game challenges will be enabled to the students gradually throughout the tournament period.
- Each student will progress at a personal pace in solving the tournament challenges.
- Students will individually solve challenges and earn points for each challenge they solve
- The points will be added to the total school points and ratings.

- The overall score obtained by the school students will be updated regularly in the scoreboard on the tournament website.
- Students can solve the challenges again and again; the best score will be the one that will be considered to the school rating.

Recognition

- Fun of playing games
- Opportunity to hone life-skills
- Certificate for every participant
- Recognition to Top 3 schools

How does it work

- Students create personalized login on the link provided by school
- Student can play multiple times between 25th May - 8th June to improve their scores
- Each login has 3 unique games to play
- Track the school on global leaderboard on daily basis on www.accelium.com

System Minimum Requirements

Accelium Olympics complies with the following browsers:

Chrome
Latest version: 71.0.3578.80

Firefox
Latest version: 63.0

Edge
Latest version: 42.17134.1.0

Accelium can also operate on a variety of mobile phones (only with chrome browser).

Error detection:

For the detection of errors, we recommend reviewing the following process. These steps have helped discard the mistakes under the conditions required for the platforms' proper functioning.

<u>Step 1</u>: Check Your Browser

- Is the problem happen in a particular browser or in several browsers?
- Is the browser up to date?
- Has the browser installed extensions that could block any platform component?
- Are you properly surfing other websites?

<u>Step 2</u>: Check the computer

- Does the problem appear on one computer only or in several?
- Are there any viruses detected on your computer?
- Is there an antivirus installed?
- Is the computer operating system correctly installed and updated?

<u>Step 3</u>: Review the Network

- Are all the websites proxy that requires the platform to work properly open?
- Is the network speed works ok? Check the speed!

<u>Step 4</u>: Review login details

Students' usernames and passwords are special characters and case sensitive. Please make sure the students do not accidentally type in their details when the Caps Lock key is pressed.

Reporting us of a problem

- You can report a problem directly to: contact-us@accelium.com
- For us to find out which problem you have encountered, please report to us with the following information:
- The name of the country, the name of the school, your name and contact details.
- An elaborate description of the error/problem. If possible, send us pictures or a video that showcase the problem.
- If it's a login problem, please also provide us with the username and password with which you had the problems.
- Please also specify the course/project code provided to you for the registration.

Certificates and Prizes

- The results will be updated and announced on June 15th.
- The schools that will be ranked on the first, second and third place will receive a dedicated certificate and a cup!
- Educational prize will be given to the school which ranked in the first place.

Please feel free to call **Nitin +91 9321302058 or Shubhangini +91 9833200944** for any queries on Accelium Olympics only.
